MAYNARD & NOYES'

PERMANENT BLACK

WRITING INK,

TESTED FOR NEARLY HALF A CENTURY.

REGISTRY OF DEEDS OFFICE, Boston, Jan. 10, 1859.

Messrs. MAYNARD & NOYES: Gentlemen—I am glad that longer use of your Writing Ink enables me to repeat the testimony given in its favor many years ago. I have used it in this office thirty-seven years, *and my oldest records are as legible and black as when first written.* This rare quality for permanence renders it invaluable for State and County Records, and all mercantile purposes, where it is important that the writing should remain legible, and unchanged in color by the lapse of time.

HENRY ALLINE, *Register of Deeds.*

The above popular Ink, together with

RED, CARMINE AND COPYING INK,

Is for sale by the Manufacturers, at

VOLUME THIRTY-FOUR.

PUBLISHED BY ADAMS, SAMPSON & CO.,

TROY:

YOUNG & BENSON, BOOKSELLERS AND STATIONERS,

No. 216 RIVER STREET.

Entered according to Act of Congress, in the year 1862, by ADAMS, SAMPSON & CO., in the Clerk's Office of the District Court of the Northern District of New York.

PREFACE.

There are no means by which a stranger can form so correct an idea of the extent of business carried on, or the number of inhabitants contained in a city, than by examining its Directory; therefore a directory, when carefully compiled, is, in a business point of view, the most perfect representative of a City.

We would be most happy to have such business men (non-residents of Troy) as have remarked that "Troy is nearly all burned," "in fact Troy was, but is no more," &c., &c., closely examine the following pages, or even hastily compare them with last year's issue; by so doing we think they will be fully convinced that Troy is yet quite a city.

It is true, on the 10th of May last, we witnessed the greatest fire that ever visited the City of Troy, and which burned a large portion of the most thickly populated part of the town; yet to say that Troy is ruined, is not the fact; for with its peculiar location at the head of navigation on the Hudson, its Railroad and Canal advantages, together with its immense trade and manufacturing establishments, it must and will within a short time, fully recover from this great calamity.

At the time of the fire we had made but little progress toward collecting and compiling the information for this work, and in consequence of which we delayed operations for several weeks, that we might be able to ascertain and record the new locations of those who unfortunately had their residence or place of business destroyed. Thus we excuse ourselves for the delay in completing the work.

We trust the extra labor which has been bestowed in seeking out these parties will be fully appreciated by the citizens generally, and that this issue, notwithstanding the many difficulties under which we have labored, may be a fair representative of the prosperity and enterprise of our people.

For the liberal encouragement and public spirit extended to us through our agents while canvassing, we return our thanks; for any errors which may appear, we ask the indulgence of a generous public, and another year we shall endeavor to correct whatever may appear amiss in the present volume.

INTEREST FIVE AND A HALF PER CENT.

The first Mondays of January, April, July and October are quarter days. Money deposited on any day before a quarter day, will draw interest from the next quarter day.

Interest will be computed on the first Monday of April and October, payable the following Saturday.

Money may be deposited by any person for the benefit of a minor or other person, and not subject to be withdrawn, if so ordered at the time of depositing. Deposits made subsequent to March, 1850, by married women, may be drawn by the depositor, without the husband joining in the receipt.

INVESTMENT OF ITS FUNDS.

One hundred and ninety-eight thousand dollars is invested in the bonds of the city of Troy, one hundred and fifty thousand dollars in stock of the United States, one hundred and twenty-seven thousand dollars is invested in bonds and mortgages on land worth double that amount, and the balance is deposited equally in the following banks, viz.: Farmers' Bank, Bank of Troy, Merchants and Mechanics' Bank, Troy City Bank, and the Union Bank. For the security of the deposits in these banks is pledged their entire capitals, amounting in the aggregate to $1,690,000, and also the personal liability of their President, Directors and Stockholders, a security far greater than that of any single bank of circulation.

JOSEPH D. EATON,

DEALER IN

GRAPE VINES,

ALSO, AGENT FOR THE SALE OF

DR. C. W. GRANT'S

IONA GRAPE VINES,

Comprising all the New & Valuable Varieties.

I have found Mr. JOSEPH D. EATON of Troy, (Green Island), to be well qualified to give information in regard to the quality and merits of the different kinds of Vines, and take great pleasure in saying to the people of Albany, Troy, and vicinity, that he has accepted of the Agency for the sale of my Plants. He is well supplied with suitable kinds for the latitude, of remarkable quality, which he will in all cases sell at extremely low prices. I commend him to the consideration of all who wish to make inquiries concerning Vines, as well as those who desire to purchase.

"IONA," near Peekskill, Westchester Co., N. Y., April 23, 1862. C. W. GRANT.

I have effected a very liberal arrangement with Dr. Grant, by which I am enabled to furnish, to a limited extent, Vines of all the desirable sorts, of unexampled quality, at unprecedented prices. To those who would like to see Vines that ARE VINES, I would say give me a call, and I can show you such as will at once give full assurance of a rich return for the very moderate price asked. Dr. Grant's Catalogues at all times on hand. All information concerning Plants cheerfully given, and full assurance of success guaranteed to all who manage according to the plain and simple directions given.

DR. J. BRIGGS'

CORN AND BUNION

ALLEVIATOR.

***PRICE*, 25, 50 *CENTS AND* $1.00 *PER BOX*.**

OFFICE, 212 BROADWAY, NEW YORK.

SOLD BY DRUGGISTS GENERALLY. SENT BY MAIL ON RECEIPT OF PRICE AND SIX CENTS.

Entered according to Act of Congress, in the year 1862, by Josiah Briggs, in the Clerk' Office of the District Court of the United States for the Southern District of New York.

Years of experimenting and study have resulted in the production of this Valuable Preparation, which effects a cure without pain or inconvenience—a beautiful and desirable application, as well as the safest, cheapest and most effectual remedy in existence for the safe and perfect cure of all hard indurated substances which afflict the feet of mankind.

The process of cure is not to burn or eat the excresence, but the Alleviator acts upon it in such a manner as to cause it to separate and entirely disappear from the foot, leaving it sound and free from any disagreeable sensation. The boot or shoe can be worn at all times after the application with perfect ease.

Dr. BRIGGS feels justified in warranting his Alleviator to effect cures both satisfactory and surprising. A cure for the maladies of the feet has long been sought for, and has never been satisfactorily accomplished until the production of his Preparation. Although the number of different "never-failing" remedies are many, still they have been applied without satisfactory results, therefore the public will have to be convinced of the merits of this preparation before it can obtain confidence. The surest way is to make a trial, and if successful, the cure will be worth many times as much as was previously expended in worthless compounds, all of which are warranted to be "unequalled," and "not to injure the most delicate foot;" but experience has taught many afflicted persons that some of these "curative" preparations possess more of the killing than of the curing qualities, as they have been made lame in some cases for weeks, and others have actually lost their lives by using those "vegetable compounds," as they are called—made from potash and acids. In view of these facts, it is a wonder that persons who have suffered from such imposition can be induced to make another trial; but as their sufferings are so severe, and permanent relief so important, like drowning men they catch at straws, and when they are satisfied that the article prepared by Dr. Briggs is truly reliable, the excitement to obtain a supply could only be equalled by a ship on fire filled with human beings.

Dr. BRIGGS' ALLEVIATOR is destined to secure public confidence by its own intrinsic merits. This preparation is simple and pleasant in its application—satisfactory and surprising in its results. The action is harmless—relief immediate and complete after the application.

There is, in general, no member of the body more abused than the feet (the chests of stay-wearing ladies scarcely excepted), and the certain penalty is corns, calosities and deformities, an unspeakable amount of pain, and in the course of time a partial or complete destruction of the powers and capacities of one of the most essential of the bodily organs. The feet, with proper care and attention, would be as free from pain and disease as the hands, their structure and adaptation to the wants and comforts of mankind being naturally perfect. Thirty-six bones and thirty-six joints have been given by the Creator to form one of the most useful of extremities, and yet man cramps, cabins and confines this beautiful arrangement of one hundred and forty-four bones and joints, together with muscles, elastic cartilage, lubricating oil, fluid, veins and arteries, into a pair of boots or shoes, which, instead of forming a protection, produce the most painful and aggravating torments, the memory of which will be fresh in the mind of the sufferer years after, even if they have been relieved by one who has devoted years of study to one of the most important yet much neglected branches of the curative art. Long may such live to enjoy the blessings conferred by the use of Dr. BRIGGS' CORN AND BUNION ALLEVIATOR, in the removal of those excrescences which entail more pain and suffering than afflictions in any other part of the body. Yet diseases of the feet are considered by most persons of such trifling importance, that they are hardly noticed at all, nor are any precautions taken, until the individual finds his feet blistered and inflamed by the pressure and friction of the boots, when years of suffering might easily be avoided. The chafing of the badly-fitting boot is, however, often continued until the result is corns, bunions, calosities, etc., etc.

Speaking of Corns.—It is the belief of some philosophers that corns came into the world with tight boots, and that they were totally unknown to the ancients, as they wore sandals and other yielding coverings for the feet. It is doubtful whether the whole Roman Empire could have produce da single corn or bunion, while it is equally certain that there is no mention of a chiropodist in Scripture. We read of no chiropodist in the Iliad, the oldest of all poems. All this proves that corns, like newspapers and vaccinations, are modern inventions. The first leather boot probably led to the first corn, the first bunion, the first swearing at the feet.

But, notwithstanding corns are a late production, they soon became universal. They are now found in all parts of the old and the new world. They are to be met with in the palace of the king, and in the cabin of the ploughman. They are found in London, Paris and New York. They flourish on the Thames, grow luxuriantly on the Hudson, and yield magnificently on the Mississippi.

Who has not suffered from corns, bunions, frosted and blistered feet, chilblains, &c.? Who has not been willing to make almost any sacrifice and incur any expense to effect their cure? but as years rolled on and no relief came, the sufferer has concluded that they were inevitable evils, and has suffered, and still continues to suffer martyrdom from these apparently simple causes. Everybody should be glad to know that all the torments to which the feet of man are subject will soon be numbered among the things of the past, owing to the victorious success of BRIGGS' ALLEVIATOR, the conquerer and demolisher of the great foes to mankind's toes.
